INDEX TO MEDICAL ULTRASOUND, VOL. 5

Page numbers in Volume 5 (1981) are continuous through each issue. Issues by month and pages are listed below:

Issue	Month	Pages
1	February	1–30
2	May	31–60
3	August	61–100
4	November	101–133

Subject Index

ABDOMEN
Neonatal abdominal real-time sonography: Normal and abnormal. Sumner et al. 41
Sonographic diagnosis of left pleural effusion with coexistent left-upper quadrant abdominal abscess. Beitia et al. 82
ACHILLES TENDON
Ultrasonic findings in a ruptured Achilles tendon. Maner et al. 81
ANGIOFOLLICULAR HYPERPLASIA
Sonographic appearance of angiofollicular lymph-node hyperplasia: Castleman disease. Peters. 22
ARTERIAL SYSTEM
The effect of internal carotid artery occlusive disease on the common carotid velocity profile. Miller et al. 61
ATTENUATION
Physical principles review. Kremkau. 56
BAKER'S CYSTS
Sonographic diagnosis of Baker's cysts. Carlson. 20
BILIARY TRACT
High-resolution real-time examination of the biliary tract and pancreas. Hull et al. 75
BREAST SCANNING
Tissue compression for the optimization of images in water-path breast scanning. Ezo. 113
CAROTID ARTERY
The effect of internal carotid artery occlusive disease on the common carotid velocity profile. Miller et al. 61
CHARACTERISTICS OF SOUND WAVES
Physical principles review. Kremkau. 26
CASTLEMAN DISEASE
Sonographic appearance of angiofollicular lymph-node hyperplasia: Castleman Disease. Peters. 22
CHYLOTHORAX
Ultrasonic antenatal diagnosis of pleural effusion (chylothorax). Porembski et al. 51
COMMUNICATION
Evaluation of the information content of ultrasound request forms. Cunningham et al. 45
CORONARY ANATOMY
Coronal water-path sonography in visualization of normal right upper quadrant anatomy. Vieaux et al. 37
DERMOIDS
The many faces of dermoid tumor. Higgins et al. 5
Ultrasonic demonstration of a dermoid cyst with torsion of the ovary. Startzel. 19
ECHOCARDIOGRAPHY
The history of hypertension and left ventricular dysfunction: An echocardiographic study. Carter et al. 31
EDUCATION
Developing competency-based clinical education in sonography. Lea. 1
Educationally speaking: A checklist and guidelines for ultrasound equipment purchases. Murphy-Irwin. 58
Educationally speaking: Preventive maintenance and the sonographer. Murphy-Irwin. 28
GRANULOMATOUS DISEASE
Chronic granulomatous disease of childhood: An unusual cause of liver calcifications. Moran et al. 53
GYNECOLOGY
Ultrasonic evaluation of the uterus in the normal menstrual cycle. Duffield et al. 70
HYPERTENSION
The history of hypertension and left ventricular dysfunction: An echocardiographic study. Carter et al. 31
LEFT VENTRICULAR HYPERTROPHY
The history of hypertension and left ventricular dysfunction: An echocardiographic study. Carter et al. 31
LIVER
Chronic granulomatous disease of childhood: An unusual cause of liver calcifications. Moran et al. 53
MASSES
Demonstration of a posttraumatic splenic cyst using ultrasound. Ryva. 86
The many faces of dermoid tumor. Higgins et al. 5
Sacrococcygeal teratoma. Stauffer. 119
Sonographic demonstration of a mobile mesosalpinx cyst. Gamble. 24
MESOSALPINX CYST
Sonographic demonstration of a mobile mesosalpinx cyst. Gamble. 24
NEONATES
Neonatal abdominal real-time sonography: Normal and abnormal. Sumner et al. 41
OBSTETRICS
Prenatal diagnosis of transitory fetal ascites by ultrasound. Veal. 85
Ultrasonic antenatal diagnosis of pleural effusion (chylothorax). Porembski et al. 51
OPHTHALMOLOGY
Bronchial carcinoid metastatic to the choroid: An echographic description. Bruce. 121
OVARY
Ultrasonic demonstration of a dermoid cyst with torsion of the ovary. Startzel. 19
PANCREAS
High-resolution real-time examination of the biliary tract and pancreas. Hull et al. 75
PEDIATRICS
Chronic granulomatous disease of childhood: An unusual cause of liver calcifications. Moran et al. 53
Pediatric applications of an automated water-path scanner. Wicks et al. 64
PELVIC ANATOMY
Left and right posterior oblique positioning in the ultrasonic evaluation of the female pelvis. Dierks. 89
PLEURAL EFFUSION
Sonographic diagnosis of left pleural effusion with coexistent left-upper quadrant abdominal abscess. Beitia et al. 82
Ultrasonic antenatal diagnosis of pleural effusion (chylothorax). Porembski et al. 51
PREMATURE NEONATES
Real-time evaluation of normal intracranial anatomy in the premature infant. Skelly et al. 11
PROFESSIONALISM
Scanning the future for sonographers. Berman et al. 34
REAL TIME
High-resolution real-time examination of the biliary tract and pancreas. Hull et al. 75
Real-time evaluation of normal intracranial anatomy in the premature infant. Skelly et al. 11
SACROCOCCYGEAL TERATOMA
Sacrococcygeal teratoma. Stauffer. 121
SCANNING TECHNIQUES
Coronal left decubitus scanning of the aorta and inferior vena cava. Rennert et al. 49
SPLEEN
Demonstration of a posttraumatic splenic cyst using ultrasound. Ryva. 86
THYROID GLAND
The ultrasonic spectrum of the "cold" thyroid nodule. Wicks et al. 101
TRANSDUCER TECHNOLOGY
Tissue attenuation effects on transducer performance. Jones et al. 107
UTERUS
Ultrasonic evaluation of the uterus in the normal menstrual cycle. Duffield et al. 70
WATER-PATH TECHNIQUE
Coronal water-path sonography in visualization of normal right upper quadrant anatomy. Vieaux et al. 37
Pediatric applications of an automated water-path scanner. Wicks et al. 64
Tissue compression for the optimization of images in water-path breast scanning. Ezo. 113
